

FACTSHEET

31-07-2025

ASN Biodiversiteitsfonds SI

Fund profile

The objective of the ASN Biodiversiteitsfonds is to contribute to the retention, protection and restoration of biodiversity, by investing globally in projects and private and listed equity. The Fund focuses on four sectors: sustainable forestry, nature conservation and restoration, 'sustainable agroforestry and regenerative agriculture', 'sustainable seas and fisheries' and 'ecotourism'.

At the same time, the ASN Biodiversiteitsfonds supports new 'green' employment that does not harm nature and contributes to local prosperity. The financial objective of the ASN Biodiversiteitsfonds combines long-term capital growth with a moderate dividend return. The Fund aims to offer investors the best realistically possible financial return with a sustainability benefit: the protection and restoration of biodiversity.

Each quarter we publish on **our website** a detailed explanation of portfolio returns, an update on recent portfolio changes, a description of the market developments and our vision and outlook.

The Fund's sustainable investment objective:

- To protect, restore and improve biodiversity

Performance based on Net Asset Value

	1 mth	3 mth	YTD	12 mth	3 year*	Since* inception
Fonds	0,63%	0,31%	-1,13%	-8,85%	-3,54%	-2,93%

10. Kingfish	0,5%

Sectors

The Fund manages its allocation across these four sectors. After the initial phase, the target allocation is: 20% - 50% in sustainable forestry, 20% - 50% in sustainable agroforestry, 20%-50% in sustainable seas and fisheries and 0%-20% in ecotourism.

Investment categories

The fund is currently in the construction phase. In this phase we ensure that there is sufficient diversification, sufficient liquid assets are maintained and that the remainder is invested as quickly as possible. There is a full pipeline of projects for which we will enter into commitments in line with the volume of newly invested assets as quickly as possible.

Sustainable policy

The ASN Biodiversiteitsfonds carefully selects from funds, projects and listed companies. Our selection procedure consists of two steps: 1) In the first step, projects, funds and companies are extensively assessed on the basis of sustainability criteria and their positive impact on biodiversity. 2) The second step consists of a financial assessment. All investments additionally have to meet the ASN Sustainability Criteria and deliver a measurable contribution to biodiversity and one or more of the following UN Sustainable Development Goals (SDGs): Climate action (13), Life below water (14), Life on land (15) and Decent work and economic growth (8). All projects and companies are assessed on criteria relevant to the sectors of sustainable forestry, sustainable agroforestry, sustainable oceans and fisheries and ecotourism. These criteria concern (among others): 1) the quality of the business model and the management, 2) the size of the project, 3) the expected positive contribution to biodiversity and 4) the prosperity of the local population. This methodology is standardised and developed by the Partnership Biodiversity Accounting Financials (PBAF). ASN Impact Investors analyses lead to a recommendation to the Investment Committee of ASN Impact Investors, which will approve or reject proposed investments for inclusion in the Fund's investment universe.
